Comments: Materials that were in poor repair have been discarded. Deficiency is now compliant.			

<p>General Comments</p> <p>Monitoring Inspection:</p> <p>Children observed engaged in a variety of activities this afternoon including dramatic play, Lego, Twister and open-ended art. Purposeful planning is evident through documentation, invitations and materials added to the environment that support the children's current (games, Lego and family/house). The children have been working on an ongoing project - building a mansion with Lego; the children have each created different rooms and have attached them together. Educators stated that a group of the children have been interested in creating their own gym games. QA Monitor recommends adding documentation to support this interest. There is an abundance of document on the walls, some are becoming outdated. QA Monitor discussed refreshing the documentation that is posted.</p> <p>Fruit cocktail and homemade banana bread with cream cheese icing was served for afternoon snack. Handwashing routines were observed at arrival and before snack. Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. Random review of staff files was completed; all required documents are updated.</p>
