| General Comments |
| A Monitoring Inspection was completed this afternoon. Upon arrival, the younger children were on their way outside and the older children were on their way down to the afterschool room. The older group were observed washing their hands upon arrival. They were observed during their snack, and they were offered a banana, a cookie, and a glass of milk. Room was full of activities and toys, and several learning invitations were observed. The older group joined the younger group of children for outdoor play. It was a beautiful day, and children were observed playing basketball, soccer, playing on the playground, and swinging on the swings. Educators were engaged with the children, walking around, checking in, and having conversations with them. Today's schedule differed a little from the norm, as the gym was not available, nor was the extra classroom, due to it being Parent Teacher Day, at the school. |
