General Comments

Licensing Staff arrived at the facility to introduce themselves as the facilities new Quality Assurance Monitor and conduct a Monitoring Inspection. Upon arrival, the children were playing outside as they waited for all groups to arrive from school. Once the final group of children arrived at the facility, some children played in a wooded area while others used chalk to play Tic Tac Toe.

Later in the afternoon the children gathered in the front lawn area and played tag. Both Educators were engaged with the children as they played and were heard asking the children how their day at school was. One Educator announced it was time to line up and go inside for afternoon snack. The transition inside the facility was smooth. This afternoon the children had apple slices with cinnamon sugar, old cheddar cheese and water. The snack matched what was posted on their menu. As the children finished eating, the Operator walked around the room handing out chocolate coins to the children for Saint Patrick's Day. Once all children were finished, the group prepared to go back outside for end of day.

Only positive child guidance was observed during today's Monitoring Inspection. Educators were well spread out while playing outside to ensure supervision was maintained. A conversation was had on site with the Operator as a reminder about the importance of hand washing before snack time.
