### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classrooms were finishing up quiet time. In the 2's room, the children were slowly waking up on their own. In the Infants room, diaper changes had just been completed, and they were at the play kitchen area making pretend food with an Educator. A new wooden worktable has been added to the room since the last Monitoring Inspection. The Educators were starting to take down some of the winter decorations and prepare for Valentine's Day. A Valentine's Day Banner was hung up, and red wooden hearts were added on a string of lights.

Downstairs the children were observed in small groups playing with puzzles, working on an animal matching game and playing with baby dolls. Please ensure that on days where weather conditions are unfavorable, the children are still safely engaging in physical movement. As discussed on site, this could be through activities that focus on gross motor skills such as hopping like a frog, slithering like a snake and action dance songs.

Proper hand washing was observed before the groups had afternoon snack. In the 2's classroom, one Educator sat at the table with the children while the other organized lunch boxes and tidied the classroom. Positive child guidance was observed in all classrooms during today's visit. The Educators were actively engaged with the children, playing cars, building towers and were attentive to their needs. All rooms are bright, clean, and inviting. Learning stories, process art and pictures of the children were displayed in each room. Staff files and child profiles were reviewed. Files were easily accessed, organized, and contained all required documents.
