General Comments
<p>Completed follow up to renewal inspection today. Some orders for compliance remain. An additional follow up visit is required.</p> <p>The climbing structure that is being stored within outdoor play area must not be used for climbing purposes unless it is re-attached to the piece of equipment that is intended for use. Using this on its own poses a safety risk and would not follow the manufacturers recommendation.</p> <p>Recommending that operator works towards fixing the paint throughout facility for next years renewal. Patching walls with colors that do not match the wall color is not sufficient.</p> <p>A new quiet area has been created upstairs since the time of renewal. What could be added to this space to make this more inviting?</p>
