| Comments: Wooden structures in outdoor play area have splintered wood. if they cannot be sanded smooth to eliminate risk for children they must be removed. | | | |

| General Comments |
|--|
| Children and educators observed in play in the indoor and outdoor learning environments during inspection. Environments are set up with a variety of materials and invitations for the children. All environments observed to be very well organized and clean. It is evident that educators are working hard to create engaging environments while ensuring the safety of the children in their groups. |
| Positive interactions observed. Educators speak kindly to children and engage with them at their level. |
| Current documentation of children's learning and art work posted on the walls throughout all age groups. |
