General Comments
<p>Monitoring Inspection completed today.</p> <p>A balance of indoor and outdoor experiences were observed during inspection. Outdoors children were engaged in play in the outdoor play area. Sand, cars, easel, structures, and mud kitchen were accessible and used by the children throughout the morning. A painting activity was provided for the children in the outdoor play area as well.</p> <p>Indoor environments are purposefully planned with a variety of materials accessible for the children. Materials are neatly displayed and labels with photos provide opportunities for children to independently access and clean up materials. Learning stories, children's artwork, photo collages, and children's words in print are displayed throughout all rooms. These forms of documentation create a sense of belonging and give children ownership of their space. As discussed, it is recommended that when learning stories are replaced, a binder accessible for children to revisit past experiences, or to add to invitations can spark new ideas and learning.</p> <p>New staff files checked during inspection were complete.</p>
