General Comments
<p>A renewal inspection occurred today at the centers' new location.</p> <p>All but one of the rooms are open and the Operator is hoping to have children start in that room next week.</p> <p>Each of the learning environments had children's learning displayed and documented.</p> <p>Children were observed during morning snack, outside play, going on a neighborhood walk, lunch, nap/quiet time.</p> <p>Staff files were reviewed and verified. A random review of the children's files occurred and were verified complete.</p> <p>Discussed with the Operator the "break out room" had how it is being used. Young children who do not nap during nap/quiet time are taken then with an Educator to interact and engage with the toys while their peers sleep and remain in the learning environment with an educator.</p> <p>Inspector discussed infant outside play area and shade required and will look into the measurements and advise the Operator to how much shade is required.</p>
