General Comments

A positive early learning environment has been created by the Operator by developing an environment that is built on caring and responsive relationships. The children trust the Operator and know their needs will be met. The Operator was visibly seen responding to social and emotional cues, getting down to the children's levels and engaging with them.

The Operator is continuously looking for ways to enhance her environment and learning for the children. Both the indoor and outdoor environments have many learning opportunities for the children.

All files and documents were easily accessible and verified. Operator is meeting all regulations and can be recommended for licensing.
