General Comments

Licensing Staff arrived at Little Dreamers to introduce themselves as the new Quality Assurance Monitor and conduct a Monitoring Inspection. Upon arrival the children were working together to make a kitty and frog zoo. The classroom was bright, organized and welcoming. Artwork, pictures of the children playing and current learning stories were displayed throughout the room.

The Operator stated lately the children have been showing an interest in using flashlights. The children went the back room and turned the lights off so they could put on colorful lights and use flashlights. Later, several children were observed putting capes and superhero masks on, trying to "catch" the bad guy. The Operator asked the children if they were feeling hungry and wanted to have morning snack. The children worked together to tidy up before washing hands in preparation for snack time. The Operator sat with the children as they ate, engaged in a variety of conversations. The group discussed what their favorite flavor of ice cream was which led to a conversation about summertime and camping trips.

Once all children had finished eating, they used the washroom and got their snowsuits, hats, boots and mittens on. The group walked to a nearby park to play. Some children were observed going on the swings, climbing the play structure and using the slide. Only positive guidance was observed during today's Monitoring Inspection. The Operator was attentive to the needs of the children, encouraged and praised their independence, "Good job! Look, you did it all by yourself!".
