Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>Upon arrival for the renewal inspection, COVID-19 signage was clearly posted and the screening process was being followed. Required COVID-19 documents are being completed and maintained on-site.</p> <p>The educator and children are spending a great deal of time in the outdoors. A variety of opportunities are given for the children to participate in a number of activities based on their interests. The children were observed to be encouraged to practice independence and supported when needed. Inside activities were brought to the outside and the children along with the educator explored, engaged and conversed with one another. Singing, dancing, guiding, nurturing and capturing moments of incidental learning were all observed. Evidence of the implementation of the NB Curriculum Framework for Early Learning and Child Care.</p> <p>Mandatory forms and documents, as well as children and staff files are well organized and complete upon review.</p>
