<p>General Comments</p> <p>Licensing Staff arrived at the Facility to conduct a Monitoring Inspection. Upon arrival, the children had just finished eating afternoon snack and the Educator was observed sanitizing the tables. Some children transitioned to the gym to play after finishing snack while others were observed making bracelets in the classroom. The Educators were well spread out to ensure all areas were supervised.</p> <p>In the gym a large group of children were observed playing hockey. Other children played basketball and drove around the gym on plasma cars. A friendly reminder was heard before the children cleaned up and prepared to go outside. An Educator was observed doing a headcount before taking the group outside.</p> <p>One Educator stated the group is really interested in playing sports. While outside the children played baseball and soccer. The Educator mentioned some days they walk to a nearby school to play baseball on a larger field space. A small group of children were gathered together collecting dirt, snow, grass and leaves to make "Tomato soup". The children used small sticks to crush and stir their soup. The Educators spread out while outside, checking in with each group of children throughout the afternoon. A verbal reminder was heard before the group lined up and transitioned back inside for end of day.</p> <p>Only positive child guidance was observed during today's Monitoring Inspection. The Educators were engaged with the children throughout the afternoon. Families were greeted at the end of day, and children were promptly signed out as they left the facility. Staff and child profiles were reviewed today. All files were organized and contained all required documents.</p>
