<p>General Comments</p> <p>Licensing staff arrived at the licensed facility on August 14th, 2024, to conduct the license renewal inspection.</p> <p>While inspecting the indoor play environment, licensing staff noted evidence of children's learning posted on the walls in each classroom. Distinct learning centres were also observed in each classroom.</p> <p>While observing the children playing in the outdoor learning environment, licensing staff observed the educators and children singing, dancing and blowing bubbles. All educators were also observed using positive child guidance when interacting with the children.</p> <p>When licensing staff arrived at the facility, the Administrator was counted in the child-to-staff ratio due to a number of staff being off due to illness. Please ensure there are enough staff present so that the Administrator is not put into the child-to-staff ratio on a regular basis as to support the educators onsite when support is needed for diaper changing, bathroom breaks, lunches and other breaks.</p> <p>While conducting child-to-staff ratio in the infant classrooms, licensing staff learned that due to staff being ill, children were moved from one infant classroom to the other infant classroom in order to meet child-to-staff ratio. It is best practice to not move children from one classroom to another in order to meet staff-to-child ratio. On page 55 of the Operator Manual, it states the following:</p> <p>"Consistency is extremely important and frequent changes of staff and play areas are avoided. The same groups of children are with the same educators each day and are not moved around to meet child-to-staff ratio or maximum group size."</p> <p>Please refrain from moving children and educators around in order to meet child-to-staff ratio.</p>
