General Comments

The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The child to staff ratio was respected.

The following elements were verified:

- Ratio
- Daily activities
- Daily routine
- The indoor play area and materials
- Washroom
- Storage space
- Personal belongings
- Diaper changing

The Quality Assurance Monitor observed that, in one child's file, the city or postal code was missing for both emergency contacts. The operator updated the file and added the missing city information during the inspection. All child profiles must be complete.

The children were observed finishing their morning snack and engaging in free play in the indoor play area. Due to weather conditions, outdoor play was not possible at the time of the visit. Positive interactions and effective conflict-resolution strategies were observed between the operator and the children.
The operator was responsive to the children's needs and fostered a respectful, supportive, and welcoming environment.
