Comments: Deficiency is now compliant			

General Comments
<p>Licensing staff arrived at the licensed facility on November 17, 2021 to conduct a follow-up licensing inspection visit.</p> <p>All compliance orders were corrected from the initial licensing inspection.</p> <p>Licensing staff noted that the protective surfacing was at an appropriate depth however, in spots, the protective surfacing needs to be raked or tilled up to ensure it measures at an appropriate depth. Please ensure that the protective surfacing is maintained on a regular basis to ensure the safety of the children receiving services at the licensed facility.</p> <p>Licensing staff also observed the purposely planned activity schedule that was posted on the communication wall located in the indoor play space.</p> <p>When licensing staff arrived at the centre, one educator was picking up the children from the late arrival bus and the children that were already on site when licensing staff arrived, were eating their afternoon snack. Some of the children were engaged in free play activities as they had already eaten their snack. Once the educator and the older children arrived back at the centre, and the older children consumed their afternoon snack, all of the children went to the gym as the centre scheduled someone to come in and teach the children all about rugby.</p>
