**General Comments**

Debris, metal, wood and any other un-safe objects need to be removed from the school age outdoor play space. The gazebo which will provide shade must be set up as soon as possible. Toxic products must always be locked by key. Junior infant nap room must be cleaned out and organized so it is a safe and functioning room for the children to nap in. The ceiling tile that is falling must also be fixed. The umbrellas outside need to be more secured to the ground as they will blow away with the wind. Classroom shelves and cabinets need to be cleaned and organized.
