### General Comments

A monitoring inspection was conducted today.  
Children appeared happy and content in their respective environments with their educators and the educators were observed very engaged in play and conversations with the children.

Discussed Room 116: Defined interest centres to be created.  
Discussed moving the art table to where the art supplies are located. Taking pictures, laminating them and posting them on the wall in the block centre will enhance this area as the children are very interested in building with wooden blocks, magnet blocks, straw & connectors and lego in this area.  
Also discussed prop boxes for dramatic play as the children have an interest that changes from "hotel" to "doctors office" Having prop boxes will make it easier for the educator to have items available for the children when their play changes.  
Educators have taken the Professional Learning on Documentation and there is a variety of documentation displayed in the rooms. Discussed taking some of the documentation and placing it in vinyl doughs to have in

General Comments

the book centre for the children to be able to revisit but it is also easily cleaned.  
Children were observed in both inside and outside play during inspection. It is evident that outside play is part of their normal daily routine.
