### General Comments

It was observed that the ELC home promotes an environment that encourages positive behaviour by using positive language when interacting with children, and by ensuring that children have access to toys and materials at will.

All records and documents area very well maintained.

The facility has re-done their outside play space. The re vamped outdoor play space demonstrates an extension of the indoor play environment by providing many of the same opportunities (creative, sensory, building, pretend, gross/fine motor, etc). The outdoor play area's layout promotes effective supervision, by ensuring that children are always in view, and therefore are easily supervised.
