General Comments

Monitoring visit performed.
Administrative records, attendance, Fire Drills, staff vaccination status were reviewed and verified and all in order. The operator always keeps records neat and organized.
Child guidance observed was appropriate. Operator engages with children in a positive manner and interacts with the children. She assists children when necessary and her play space is organized and purposefully planned. Children have been learning about dinosaurs - lots of programming observed and posted at children's eye level. The Operator has a busy group of active boys and they all play really well together. Children were involved in a variety of activities.
Children were observed washing hands before eating lunch. Children were given a choice to eat their lunch or to wait to eat later.
Extreme cold today so I did not observe children in outdoor play, though during past visits children always have opportunities for outdoor play experiences.
The Operator is also completing her 2nd year of ECE in April and this is very evident in her programming.
