General Comments

Upon Licensing staff arrival to conduct the renewal inspection, the children and Educator had just returned from a morning walk and were preparing for outdoor play.

The outdoor play space was fully fenced with ample shade from the overhead deck. Children were observed playing in the mud kitchen hangout house, digging with scoops, playing frisbee, running and laughing. For outdoor play material, there was a wooden play climber, stepping stumps, tires for climbing, balls, trucks and books were brought out and set up on low picnic table. Before coming inside, the Educator helped the children clean up the play material and there were lots of giggles heard when rinsing the children's feet with the hose.

Once indoors, proper handwashing and diaper changing was observed. The indoor space was clean, organized and inviting with current learning stories and children's artwork on display. There were easily accessible labelled bins of play material and open-ended play pieces throughout the space as well as an indoor club house with a slide. Art supplies were organized in colourful bins, books were on display in cozy corner, and the planned activity for later in the afternoon corresponded with the posted calendar for Fun Friday. There was evidence of a daily routine as the environment was calm and transitions were smooth. During lunch, the Educator was engaged with the children and offered assistance to the children when needed.

During inspection, child and staff files were verified and all required documentation was present. Monthly fire drills are being conducted and daily attendance records, information sheets and nap logs are being completed. The parent wall was visible with all required licensing postings as well as evacuation plans.

Licensing staff recommends for renewal.
