General Comments

A renewal inspection occurred today, July 15, 2024.

The children were observed in both inside and outside play. The inside learning environment has the children's learning displayed throughout, down at the level of the children. Family blocks have been created and the children were observed interacting with them, looking at pictures of themselves with their families.

Educators were observed having positive interactions with the children, tending to their needs and speaking kindly and appropriately to them.
