General Comments

The only space that was in use and inspected today was the gym.

The k-2 students had already arrived at the facility before I got there. Children were sitting on the carpet getting ready to wash their hands for snacks. The children who did not wish to have snack were able to play around the room until everyone else had finished.

When it was time for the grades 3-5 children to be picked up, the educator who was to head over to pick them ensured to take some of the k-2 children with her to ensure that the educator who was left at the facility stayed within ratio.

All children went outside to play at the "gravel square" next to the facility for the first part of their outside time today, educator informed me that they will be going to the school park later. This area offers an abundance of natural shade which is provided by large, beautiful trees. When at the "gravel square" educators ensured to bring the outside activity bag with them. Children were observed playing with a large checker mat, balls, skipping rope, digging tools, frisbees, etc.

Educators were observed ensuring they got down to the children's level to provide gentle reminders when needed.

All staff and child files that were observed today were found to be in compliance with licensing regulation.
