### General Comments

Children were partaking in several activities during the inspection. These activities included hockey game, crafts, Lego/construction, dramatic play and reading.

The educators were engaged with the children and attentive to their needs. Educators were observed moving around the room talking the children and participating in the various activities the children were involved in. I would recommend the facility purchases a few more noise cancelling headphones as a couple children were complaining about the loud noise in the gym.

Please remember to keep the fire drill records up to date, making sure the fire drills are recorded on the day it occurred.

The facility seemed to be running smoothly during the visit.
