### General Comments

#### Renewal Inspection:

Children were observed playing outside when the licensing staff arrived. The children were making bracelets, playing catch, swinging on hammocks, digging holes, and creating a hunting blind to "hunt deer".

The children were observed going inside for lunch. The children washed their hands and sat down for lunch. During lunch, the educators were observed sitting with the children and engaging in conversations with them.

After lunch, the children were observed playing in the block area, making bracelets, boxing with boxing gloves and a punching bag, and making creations out of clay.

The educators were observed interacting positively with the school-age children.

Documentation around the classroom reflects the children's on-going learning.

The following records were reviewed: Incident logs, fire drills, and daily attendance sheets.

All staff files were viewed, and a random review of child files was completed.

Facility is recommended for licensing pending Fire recommendation.
