General Comments

A Monitoring Inspection was conducted this afternoon. The after-school classroom was observed before the children arrived. Several well-defined learning / play centers were observed - cozy reading area, dramatic play, building, arts & crafts, science & math, and a sensory bin, full of sand. The room was decorated with spooky Halloween decor. Cleaned out pumpkins were observed on the table. Educators stated that children would be carving them later this afternoon or tomorrow. Educators stated that the children would be having a Halloween party at the end of the week. Educators stated that the children are interested in soccer, dress up, and building. A huge log building area was observed in the classroom. One could tell that the children spent a substantial amount of time creating this area. While outside, children were observed playing soccer, sliding, and fort building. Parent Board observed and all required documents were posted. Positive child guidance techniques were observed - educators using positive language, educators providing appropriate supervision, and educators conversing with the children about their day.
