### General Comments

The Quality Assurance Monitor is on site for a monitoring inspection. The ratio is respected at the time of the visit.

The following elements were verified:

- Administrative records maintained on site.
- Incident records
- Washrooms
- Diaper change

Educators have a good understanding of safe diaper changing practices. There are sufficient and safe washroom facilities to meet the needs of the number and ages of children enrolled in the facility.

A daily incident log is maintained, showing child's name, date, time and record of event.

At the time of the inspection, indoor free play was observed.

No non-compliance during this visit.
