The QAM had a discussion with the operator regarding an infant napping for more than 2 consecutive hours. The operator informed the QAM that the child was waking up and going back to sleep. The parent picked up the child while the QAM was on site and signed the consent to permit a more than 2-hour consecutive nap time. The consent form was placed in the child's profile.

The QAM observed the children eating their snack and playing in the indoor play area. Positive interactions were observed between the operator and the children.
