### General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.

The following elements were verified at the time of the inspection:

- The outdoor play area
- The administrative records maintained on site
- If required documents are posted in a visible and prominent place in the facility
- Washrooms

All required documents are posted at the entry of the facility. There are sufficient and safe washroom facilities to meet the needs of the number and ages of children enrolled in the facility. The outdoor area is compliant with the Act and regulation.

At the time of the inspection, the QAM was able to observe story time. This week's theme is caterpillars. Children also played outside during the inspection.
