General Comments

Regular monitoring inspection performed on this date. Dog was present in the home and had the appropriate health record on file.

Children were engaged at the table with a hot glue gun, popsicle sticks, and coloring with markers and pencil crayons.

Play materials have been reorganized since last monitoring visit and are easily accessible and visible to children. Materials are developmentally appropriate and based on the interests of school age children and include board games, beads, and crafting materials. A painting area has been added to home and is a nice addition.

First aid kit was available to use and contained all required materials.

Postive behaviour guidance was observed throughout the inspection.
