General Comments
<p>When I arrived, one group was having French class in the small room. In the large room, children were engaged with different learning materials and some children were eating snack on the table in the hallway. The teacher advised that the 3- and 4-year-old work on lessons of particle life, coordination, concentration and transferring. The staff also advised that they were learning parts of the apple. The classroom is clean and organized with different learning materials for the children. The teachers were observed speaking to the children in a respectful manner. The outdoor playground was inspected and meets regulation. The files were inspected and are well maintained. I recommend for renewal.</p>
