General Comments
<p>A Monitoring Inspection occurred today, June 17, 2024, in the afternoon.</p> <p>A notice to inform parents of the existence of a communicable disease is posted and clearly visible. Children were observed during indoor free play and nap time, and proper handwashing was observed during the transition to play after snack. Steps or platforms are provided to allow children to reach regular-sized toilets and sinks.</p> <p>Educators stated that the children are presently very interested in the lifecycle of frogs, being active outdoors, and fort building. Parents of children present at the center are granted entry at any time. A clearly visible and prominent place is available to post the license, current inspection report, current monitoring reports, and orders for compliance. The daily routine is posted in each room. Well-defined learning and play areas were observed, and several pieces of the children's artwork were displayed throughout the facility. Toxic products such as chemical products and cleaners are locked and inaccessible to the children. Drinking water is provided throughout the day.</p> <p>Opportunities are open for individual and group experiences, and various forms of literacy are present in the indoor environment. Portfolios are being completed with the children, and several forms of documentation were observed throughout the facility.</p>
