33(1) An operator of a licensed facility shall provide outdoor play area materials and equipment that are varied and in sufficient quantity for the number and ages of the children receiving services at the licensed facility.	33(1)	Mar 07, 2025	
Comments: There were two trucks and one bucket in the outdoor play space. More open-ended play materials need to be added to the outdoor play space.			
40(1) An operator of a licensed facility shall ensure that personal belongings of a child receiving services at the licensed facility that are brought to the licensed facility, including combs, brushes, toothbrushes, towels, washcloths, bedding, pacifiers and soothers, are (c) stored separately for each child.	40(1)(c)	Mar 03, 2025

Comments:	Although child to staff ratio was maintained during the visit, supervision was an issue both inside and outside. The was very little engagement with the children the educators were more focused on cleaning, talking to each other and getting the room ready for nap time. During lunch time in the two-year-old room one educator spent majority of the time in the bathroom doing diaper changes and the other educators was setting the cots up for nap time. The children were alone at the table eating, sharing each other's food. No water was given to the children until they were almost finished eating. During outdoor play, one child fell in the corner and had a bloody nose. The educators were standing in the middle of the playground talking and did not notice the child.		

General Comments
<p>Children were engaged in free play activities when I arrived. Materials are on low opened ended shelves that are easily accessible to the children. Each room has a picture of the children, and their families posted on the walls.</p> <p>It is recommended that lesson plans and learning stories be dated. There were two stories in the preschool room and three posted in the two-year-old room.</p> <p>It is also recommended that the books in each room be sorted to make sure they are age- appropriate for the children. Also puzzles in the two-year old classroom are missing pieces. These puzzles need to be replaced.</p> <p>I would suggest that a different routine be implemented in the two-year old classroom. When the children come in from outside, hand washing and diaper changes should be done before the child starts to eat, not when the child is halfway through their meal. The would give the educators the opportunity to sit at the table with the children during lunch time.</p>
