### General Comments

On the day of my visit the center seemed to be running very smoothly. There was plenty of communication between the educators. It was a nice and friendly atmosphere.

The two year old group was outside playing and the other preschool group was finishing up snack and getting ready to for outdoor play time. I completed a quick inspection of the playground. It will need more protective surfacing added around a couple of the stationary structures.

As I toured the center I heard plenty of positive guidance from the educators. One educator was asking the children what they would like to do for outdoor playtime.

Reviewed with educators to put dates on their daily information sheets and weekly schedules as it makes it easier to keep track the activities happening in the center.

There is evidence of planned activities and documentation through out the center.
