Order for Compliance	Regulation	Date to be corrected	Date corrected
31(3) An operator shall maintain the outdoor play area of a licensed facility to ensure the safety of the children.	31(3)	Oct 27, 2025	
Comments: While inspecting the outdoor play environment, licensing staff noted multiple tires with accumulating water that is not able to drain. Please ensure holes are drilled into the tires so that water can drain out. Licensing staff also noted a wooden kitchen that is wobbly and a board that is lifted. Please repair or remove the wooden kitchen.			
31(4) An operator shall ensure that the outdoor play area of a licensed facility (b) consists of more than one surface to permit different types of play.	31(4)(b)	Nov 03, 2025	
Comments: While inspecting the outdoor play environment, licensing staff noted the sand in the large sand boxes, located on the older children's and the infant play environments, was depleted with sand and therefore only one surface on the outdoor play environments. Please ensure there is enough sand in the sand boxes for the children to explore and play with.			

General Comments
Licensing staff arrived at the licensed facility to conduct the yearly license renewal inspection as children were transitioning from home to childcare. The educators in each classroom were observed consoling children as they were being dropped off by their parent and were struggling with the transition. Each classroom had distinct learning centres for the children to engage with receiving care at the licensed facility. Child to staff ratios were within regulation according to the Early Childhood Services Act and each classroom had evidence of the children's learning posted on the walls for the children to revisit the learning experiences. While reviewing staff files, all of the required documentation was present in the files. The children were well supervised during morning snack and lunch time. Please ensure all required documentation is present in each of the children's files. If a family does not currently
