21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child and shall include (c) opportunities (iv) to explore the arts and sciences.	21(c)(iv)	Mar 08, 2024	
Comments: All art supplies in the infant rooms were on high shelves. Infants must have access to art supplies. QAM and Admin discussed using clear plastic boxes with covers so that children can access art supplies but also be supervised with the supplies.			
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (c) staff member records that include (vii) a copy of a valid first aid certificate and a valid cardiopulmonary resuscitation certificate for each administrator and educator.	24(1)(c)(vii)	Mar 06, 2024

25 An operator of a licensed facility shall post in a clearly visible and prominent place on the premises: (e) the name and telephone number of the inspector.	25(e)	Mar 08, 2024	
Comments: The current Quality Assurance Monitor and Inspector's names must replace the former in the visible postings.

Comments: Quality Assurance Monitor noted 3 Emergency Allergy Management plans tacked to the visible postings board. There must be visible postings for severe allergies that are obvious to anyone entering the facility; QAM suggests printing the food item with the red circle around it to ensure all parents and children are aware of the allergy. These should be posted at each door to the facility to ensure the safety of children. .			
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (d) clean and in good repair.	32(1)(d)	Mar 07, 2024	Mar 06, 2024

This item should be replaced with other appropriate seating options for this room. In the 2 year old room there is two books that are ripped that should be removed or repaired. Educator states they check the books once a week. Items were removed. Deficiency is now compliant

Comments: Several blankets for the two year olds are stored in a basket. Educator stated that this is due to the sleeping bag style of bedding not fitting in their cubbies. Blankets must not be stored touching one another.			

General Comments

Quality Assurance Monitor discussed PL hours and Designation renewal with the Administrator. One staff does not have a current First Aid certificate. QAM viewed a screenshot outlining the time and date of the course that was taken. Until the certificate is received the staff should not be left alone while on-site. QAM discussed program planning and documentation with Administrator. QAM to send document to assist in planning. Educators must ensure that programming is being created from the children's current interests; and not planning too far ahead of time as children's interests can change. QAM to contact Early Learning Consultant to offer support.

QAM observed children waking from naps, completing bathroom times, freeplay; handwashing and snack. QAM observed infant educators singing songs, and verbalizing what is happening around them as they played. QAM observed the 2 year olds enjoying the seating options in the room, including the red chairs that rock and the purple sofa. Educator and QAM discussed how the two year olds love to be in this seating area with cozy chairs. QAM recommends finding ways to provide more varied seating for this room.

QAM notes that children have been shifted into different rooms this week; Educators stated this is due to low numbers for March Break.

Ratio is in compliance at the time of inspection.
