General Comments

The Quality Assurance Monitor is on-site for a monitoring inspection. During the inspection, the Quality Assurance Monitor was able to observe during indoor free play, lunch time and nap time. The Quality Assurance observed that the attendance records were accurate and reflected all children present at any given time. The attendance records were complete and if children were absent, the reason for the absence were clearly indicated on the attendance records. The attendance records were recorded using the attendance form provided by the department in the Operator Manual, Appendix 10. No alterations to the form were observed during the inspection.

The Quality Assurance Monitor observed lunch and nap time procedures. The Quality Assurance Monitor was able to observe that children who did not sleep were permitted to do quiet play at a table while the other children slept.

The ratio was respected at all times during the inspection and the Quality Assurance Monitor was able to observe positive interactions between the educators and the children.
