### General Comments

During my visit in the morning, the daycare meets the requirements of the Early Childhood Services Act and New Brunswick regulation according to the ratio, the incident records, updating staff member records, daily routine and daily activities.  
Planning is done on a weekly basis in each room, and for documentation purposes, some of the children's crafts are posted in the corridor.  
Discussion with administrators about planning and documenting activities in each group (suggestions mentioned: time for planning between educators for each room, webbing, observing children to see their interests and doing activities related to children's interests and more).  
Observation of morning snack (cereals), diaper changing and lunch (fish burger).  
The children go outside during my visit.
