General Comments

During my unplanned visit in the morning, I observe compliance with the ratio for all age groups present. In addition, young children are not mixed with other age groups. The following elements are observed during my visit:

- Designation: All educators concerned had completed the required 10 hours of professional development prior to the license expiration date in February 2026.
- Verification of 3 new files for staff members.

Observation of snacks provided by the daycare (bagels with cream cheese and fresh fruits).
The 3 and 4-year-old group went outside during my visit. The younger children were separated from the other children during outdoor play.
