General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, the classes were transitioning from nap time to afternoon snack. The children's napping materials are being stored separately in labelled bins. Educators in the infant and 2-year-old class were observed sitting with the children as they ate afternoon snack, engaged in conversation with the group.

As the children finished eating, faces and hands were cleaned. In the 2-year-old classroom the children played dressed up, danced with flowers and worked on fine motor skills, using a hammering set until their peers were finished with snack time. The table and floors were cleaned before the group prepared for outdoor time. A verbal headcount was heard at the door before the children exited the building. Water bottles and attendance records were brought outside. Several positive changes have been made to the outdoor environment such as a new sandbox, tires and stepping stones that are placed together to make an obstacle course and a pipe ball drop wall.

During today's Monitoring Inspection the classrooms were bright, organized and welcoming. Current learning stories, pictures of the children and artwork was on display throughout the facility. The Educators were attentive to the needs of the children. As a reminder, please ensure Fire Drills are recorded as they are completed.
