General Comments
<p>A renewal inspection occurred today.</p> <p>The children were observed during inside and outside play. Outside on the infant deck and in the outdoor classrooms.</p> <p>The children's learning is documented and displayed in each of the learning environments. There are age-appropriate, open-ended materials and loose parts for the children to interact, engage and create with.</p> <p>Recommending in the Infant room that the last name of children be on the Daily Information sheets, if at some point, there are children with the same first name in the room.</p> <p>Positive interactions from the Educators to the children were observed during the inspection. Educators were observed speaking kindly and appropriately to the children, tending to their needs, and comforting them when they were upset. Laughter could be heard throughout the center as well as in the outdoor classrooms from the children and the Educators during their learning through play.</p>
