General Comments

Licensing staff conducted the annual renewal inspection.

Upon arrival, the children had not yet arrived from school. Educators were observed preparing the environment and gathering the first aid kit before departing on the Go-Go Bus to pick up the children from the nearby school.

Once the groups arrived from school, children lined up along the wall while attendance was completed. The children transitioned to the outdoor play area for the afternoon. Children's bookbags were hung on hooks located outside the play area.

While outdoors, children were able to engage freely with the available materials and activities. Many children were observed participating in sports activities, including soccer and basketball. Educators provided supervision while also actively engaging in play with the children. Some children were observed using bowls and spoons to create musical drums. Educators encouraged children to eat their snack at the picnic tables when hungry.

Inside, the environment was organized and equipped with a variety of accessible materials for the children to use.

The parent board is up to date. Fire drills are being completed monthly. Staff and child files were reviewed and found to be in compliance.

Licensing staff recommends the program for renewal.
