Comments: Deficiency is now compliant | 9(1) | Mar 02, 2022 | Mar 28, 2022 |

General Comments

Upon arrival, licensing staff observed that more learning centres were put into place for the children. The Operator has asked for more support in the programming and environmental areas even though progress has evidently been made.

Guidelines for managing illness are now being used appropriately. Potential illness forms are being used and operator has a better understanding on when to use these forms.

The exit leading to the outdoor play space has been fixed and the outdoor play space is now usable.

It was discussed with the Operator that parent(s) need to be advised to dress children accordingly as outdoor play is a necessary part of the children's day. Operator was advised that extra clothing could be kept at the facility for children or parent(s) could be advised to pick up their children if the proper attire is not brought in with the child. This should all be stated in the parent handbook.

For children who are not napping, more quiet learning centres should be set up to give a variety of choices. The amount of television time should be limited during the day.

Licensing staff can recommend facility for licensing.
