General Comments
<p>A renewal inspection occurred today.</p> <p>The children were observed in the inside and outside environment. As children arrived educators greeted children at the door and reminded them of handwashing. Children who wanted snack sat for snack and children who didn't want to eat engaged in tabletop activities with educators and peers. The educators were observed having meaningful conversations with the children, listening carefully allowing them time to think and express how they are feeling.</p> <p>Licensing observed flexible areas that are rich in opportunities for sensory learning, social interaction, language, exploration, manipulation, and representation. They are purposely designed and planned to enhance children's healthy development and learning.</p> <p>Educators accommodate children's emerging interests by making children's contributions and thinking visible through displays, documentation, photos and artwork.</p> <p>Recommending staff small group during transitions if ratio allows to ensure children are not waiting long periods of time.</p>

General Comments

All staff files and random review of children's files were complete.

Facility is recommended for licensing.
