Order for Compliance	Regulation	Date to be corrected	Date corrected

General Comments
<p>A renewal inspection occurred today, October 27, 2023. The children were observed actively engaged in a variety of activities. Lego, drawing, playing with balls (kicking and basketball), dramatic play. Educators in this program do not have access to the licensed space (gym) until school is done for the day. Observed one educator taking attendance, ensuring the children washed their hands upon arrival from school, supervising them while some played with balls and other were drawing. The other educator was observed setting up the room with a variety of age age-appropriate interest centres in 1/2 of the gym. Leave the other 1/2 open for children to participate in gross motor activities. Some of the children were observed helping the educator the educator set up the room. The educators have this routine of setting up the room into a very smooth transition for the children.</p> <p>Discussed with Childcare Manager, during the inspection, that children in the After School Program, are not use the school's outside stationary equipment. There is insufficient surfacing in all the fall zones. Even with raking more is required to be added before children will be able to utilize this area safely.</p> <p>Facility is recommended for license renewal.</p>
