<p>General Comments</p> <p>A Monitoring Inspection occurred on January 13, 2025.</p> <p>Children were observed engaging in outdoor play and transitioning smoothly to the outdoor environment.</p> <p>Educators reported that the children are currently showing a strong interest in outdoor play, exploring different cultures using a "passport around the world", engaging in art activities, and constructing with LEGO. They were observed using positive language and providing gentle reminders to support children's behavior. Open-ended questions were frequently posed, and educators demonstrated active listening by paraphrasing children's responses to ensure clear understanding. Outdoors, educators played an active role by participating in and facilitating children's activities.</p> <p>The facility maintains a daily incident log, and parents are informed of any incidents through completed report forms when necessary. Monthly emergency evacuations are conducted, and essential documentation, including the license, current inspection and monitoring reports, and orders for compliance, are displayed prominently. Evacuation procedures and the daily routine are also posted in visible locations.</p> <p>The environment is welcoming, with educators enthusiastically greeting parents and children upon arrival. The room setup is thoughtfully arranged, inviting children to explore and engage in play. Books reflecting children's current interests are easily accessible, and the facility offers a diverse selection of age-appropriate equipment, materials, books, and toys. Defined learning and play areas are well-structured, with children's artwork displayed throughout the space.</p>
