Order for Compliance	Regulation	Date to be corrected	Date corrected
33(1) An operator of a licensed facility shall provide outdoor play area materials and equipment that are varied and in sufficient quantity for the number and ages of the children receiving services at the licensed facility.	33(1)	Aug 15, 2025	Aug 27, 2025
Comments: Deficiency is now compliant			

General Comments
<p>Licensing staff visited the facility to follow-up on non-compliance for lack of outdoor resources. As soon as licensing staff approached the outdoor play space, it was noted that children were engaged throughout the space with new resources. The educators stated they were happy to see children have quality resources in sufficient quantity and they have noticed the children's engagement and less comments of boredom. New resources included a teeter totter, large wooden blocks, new balancing and steppingstones, large games of Tetris and tic tac toe, diggers for the sandbox, a new kitchen and materials, and transportation toys. The administrator also stated that a wooden house will be added once some of the surface is paved.</p> <p>A new staff file was reviewed and complete and an educator had updated their criminal record/vulnerable sector check. On the previous visit, the vulnerable sector check was missing from this educator's file but on-site administrator on that date and licensing staff suggested the educator may have a copy at home. A reminder that operators must ensure staff have all required documents and checks in their staff files before beginning employment.</p>
