### General Comments

- Visit completed in the afternoon at the facility for a monitoring inspection.
- Ratio was respected during the visit.
- Positive child guidance was witnessed.
- The child's files contain all required documentation. During the visit 12 out of 25 files were verified.
- The consent forms are signed in the children's files.
- The minimum space between rest equipment is at least 46 centimeters. All nap equipment is washable and non-absorbent. Nap mats are 5 cm in thickness and disinfected on both sides after each use.
- Observations:  
2-year-olds: The two-year-old group had a nap. After naptime the children ate their snack.  
3-4-year-olds: The children that were not napping were playing quiet games. The educator was talking and creating art at the table with the children. The children woke up from a nap, washed their hands and ate their snack.
- Discussion with the director on staff files. The three educators that are not 19 years of age cannot be alone with a group of children, open or close the facility.
