<p>General Comments</p> <p>A renewal inspection occurred today. Children were observed in both indoor and outdoor environments. Materials/props were open-ended to provide multiple choices, solutions and possibilities. Documentation was observed in each learning environment and is reflective in children's current interests. Learning areas are flexible to allow for the movement of children and materials to be in and out of each environment. Invitations were observed on tables/shelves that inspire exploration and engagement. Educators were comfortable playing, engaging and participating in children's play indoors and outdoors. All staff files were observed and complete. A random review of children's files was also observed and complete. One child's file missing second emergency contact however, it was discussed that they are not from the area. Operator will check in to see if there is someone they can add now as a contact and update licensing at follow up. All checks were also observed and complete.</p>
