General Comments

Licensing staff arrived at the licensed facility while children were still being dropped off for the day. All groups were playing in the gym before breaking off into their individual classrooms.

The infants went for a walk in the community before coming in and washing up for lunch. The infants were supervised while they were eating their lunch.

The preschool groups went outdoors for outdoor play after having some indoor free play. After outdoor play time, the groups came inside and washed up before having their lunch.

All classrooms had an abundance of evidence of learning posted on the walls for the children to revisit the learning experiences. All of the classrooms are set up with distinct learning centres and are very welcoming and inviting.

Child-to-staff ratios are within regulation according to the Early Childhood Services Act.

Licensing staff observed only positive child guidance techniques used by the educators in each classroom.

The contact information for the licensing Inspector needs to be updated with the following information: 506-259-6732 as the current information is incorrect.

Licensing staff recommends the facility for the renewal of their license.
