Comments: The Quality Assurance Monitor observed at her arrival at the facility that all the children were playing in the field next to the outdoor play area. The Quality Assurance Monitor took ratio from the 3 classes and observed the infant class mixed with the two other preschool classes. Infants can only be mixed with preschool age children outside the hours of 8h30 am and 4h30 pm. The educators brought the children inside to transition to lunch time. Deficiency is now compliant.			
11(c)(ii) The qualifications and training requirements for administrators and educators are as follows: (c) at a full-time or part-time early learning and childcare centre, (ii) on and after July 1, 2020, (A) at least 50% of educators must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister, and (B) an administrator must hold a one-year Early Childhood Education Certificate or training that is equivalent in the opinion of the Minister.	11(c)(ii)	May 01, 2023	
Comments: During the monitoring inspection, the Quality Assurance Monitor observed that none of the educators hold an Early Childhood Education Certificate. The operator informed the Quality Assurance Monitor that two staff are in the process of completing their microcredential ECE, and she is planning on hiring a new staff member with their ECE. A new written plan must be submitted to the Quality Assurance Monitor, given that this has been an ongoing non-compliance since the renewal inspection from 2023.

Comments: In one classroom, the daily activities were only available to the Quality Assurance Monitor for the past two weeks. The educator informed the Quality Assurance Monitor that the other binder was left at home. The daily program must be available for review by licensing staff during inspections.  In another classroom, the Quality Assurance Monitor was not able to observe the documentation of the daily activities. The educator informed the Quality Assurance Monitor that she was new to the facility and didn't know where the binder was stored by the other educator working with her. The daily program must be available for review by licensing staff during inspections.

8(2) The maximum number of children who may receive services at a full-time or part-time early learning and childcare centre, as indicated on the licence, shall not exceed 60 children, including the children of the operator.	8(2)	Dec 03, 2025	Dec 03, 2025
Comments: While conducting the monitoring inspection, the Quality Assurance Monitor observed one school-age child present in a room. The facility is not approved to offer services to school-age children. The number of children must not exceed the licensed capacity of 36 preschool children. The child belonged to a staff member and was at the facility because the school was closed due to the snowstorm. The operator asked the staff member in question to leave with her child.
